Wills, Trusts & Estate Planning for individuals and their families

Making a Will is one of those things we all mean to get around to doing, yet too few of us actually have a Will in place.

Putting plans into place makes it easier and clearer for your loved ones to sort your affairs once you have gone. It will allow you to name your chosen Executors to handle your assets, or Guardians to care for your children, you may set out specific gifts to certain people, state your funeral wishes and establish Trusts to protect your assets for future generations or for dependants who may not be able to care for themselves.

Our services include:

- **Will preparation**
Ensure your assets go to the right people
- **Inheritance Tax Planning**
Plan now to minimise your families tax liabilities on death
- **Lasting Powers of Attorney (LPAs)**
Chose who you want to make decisions on your behalf if you become incapacitated
- **Probate & Estate Administration**
Help with applying for a Grant of Probate and/or administering the whole estate
- **Asset Protection Trusts**
Protect your home and assets for future generations

Contact your local office to take advantage of a free, no obligation consultation.
